

## Nigeria will prosper

We're a resilient nation, filled with people who persevere, solve problems and work hard to get what they deserve. Nigeria is a land of opportunity, where dreams come to life and freedom of speech liberates.

At PSHAN, we believe that Nigeria will prosper through health. That's why we've invested our resources, time and passion into ensuring that we care for our people. Help us make a difference and join Adopt-A-Healthcare-Facility Programme (ADHFP).

## PSHAN and ADHFP will revolutionise Nigerian healthcare.

**According to the World Health Organisation, the Maternal mortality ratio is 814 per 100 000. The mortality rate for infants and children under five years is 70 and 104 per 1000 live births, respectively.**

Imagine walking into a healthcare facility with caring professionals that can assist you at an affordable cost.

Imagine having access to healthcare without having to travel far.

Imagine your peace of mind knowing that you and your family can receive quality primary healthcare.

These scenarios might seem unthinkable to many Nigerians. What if we told you that Adopt-A-Healthcare-Facility Programme (ADHFP), in partnership with the Private Sector Healthcare Alliance of Nigeria (PSHAN), is making these dreams a reality.

**Nigeria has one of the fastest-growing populations globally. With 5.5 live births per woman and a population growth rate of 3.2% annually, It is estimated to reach 440 million people by 2050.**

**PSHAN aims to provide sustainable primary healthcare solutions to ensure the Nigerian population remains healthy.**

### **World Population Day**

Nigeria is synonymous with incredible wildlife, majestic mountains, and extensive forests. The only thing exceeding its natural beauty is the cultural magnificence of its people. Boasting a bustling metropolitan with a population of 206 million people, Nigeria is an ever-evolving country and continues to support the development of its people. PSHAN has been at the forefront of improving the lives of the entire population by improving access to primary healthcare.
